## Our Services

**Compact Ambulance Response is a private ambulance company that provides clinical Private Ambulance Support services and support in a variety of healthcare sectors. With all staff coming from long and distinguished NHS backgrounds, this has enabled us to provide the best level of care to all our patients.**

**With most providers specialising in only certain aspects of healthcare, we are proud of the fact that we can facilitate a wide range of services, along with ensuring that you get the best out of the service you need. Take a look at what we can support you with and see how we can be of service. Our staff are highly skilled, and all training is regularly updated. We are a very committed company who take pride in what we do and offer, therefore you can be rest assured we are safe, caring and responsive to individual needs as well as supporting you with your event management plan.**

**As standard, our staff have Equality, Diversity and Human Rights (E&D) training, Information Governance (IG) training, Moving, Handling and Back Care, Infection Prevention and Control (IPC) level 2, and are fully up to date with Safeguarding (Adult and Children). We regularly update training to ensure our knowledge is current and our skills are honed.**

## Alcohol & Drug Services

Employers lose millions of pounds annually due to lost productivity, an increase in sick leave, and an increase in accidents caused by alcohol and substance usage at work.

Our alcohol and drug services, which are administered by our experienced and qualified workforce, can assist you in adhering to legal requirements and determining whether alcohol and drug usage is having an impact on the productivity of your business.

**Kinds of Testing.** The following kinds of drug and alcohol tests are provided by Compact response:

- Pre-Employment (only for positions that are safety-critical; call to discuss)
- Pre-assessment exams (for new hires)
- Random Testing (according to business policy or out of suspicion)
- For Cause Examination (during an incident)
- Chain of Custody and dipstick (urinalysis) drug tests are both available.

The best testing technique for situations that are likely to go to a tribunal or “For Cause Testing” because of a specific work-related occurrence is chain of custody testing because it is legally enforceable.

- Breath analysis is used for alcohol testing.

It is necessary to have a drug and alcohol policy or procedure in place before scheduling any drug and alcohol testing. Why, one may wonder. Because you (as an organisation) require a protocol for handling test results that are positive. You might want to talk about this with your HR advisors or department. Should you require assistance, Compact response can help. Referrals as well as counselling

After the results, Compact Response can set up therapy and additional referrals to outside organisations if necessary.

### Instruction in Awareness

- Training in drug and alcohol awareness is provided by Compact Response for
- Workers’ responsibility and the risks of substance usage at work
- Managers: indicators of substance misuse at work to watch out for Policy and Procedures
- Create your drug and alcohol policies and procedures with the assistance of Compact Response.

## Alcohol & Drug Services

### How to Begin?

Use our contact form or give us a call at +44 (0)330 0438 438 to discuss your concerns and requirements in confidence. If you think you require testing or suspect an issue, we'll advise you on the best course of action.

For all kinds of businesses, Compact Response provides a random drug and alcohol testing approach that entails testing staff members in compliance with corporate guidelines.

Employee informed permission is required for all of our operations in order to:

- Submit to drug and/or alcohol testing, and when necessary, let the employer receive the test results.
- We use an approved quick urine test that yields a qualitative answer in a matter of minutes or drug testing.
- The method used for alcohol screening is a breathalyser test, much to the ones used by police departments in the UK.
- Normally, a laboratory is consulted for confirmation of results and to rule out false positives for any positive results.
- Routine testing can usually be done at a client's location with prior consent. If employees get tested at our medical centre during business hours, there is little chance of "for cause" testing.

Please get in touch with us to go through your specific testing requirements if they are not included above.

## Nightclub Medic Cover

A Compact Response Medic is a 1st choice when it comes to nightclub medical cover, in comparison, we are the difference between a First Aider and a Paramedic for quality of service. We provide swift medical support to the nightclub industry by treating everything from minor injuries, to patrons who have consumed too much alcohol or taken illicit substances.

As well as primary treatment for more serious incidents.

Our staff are highly trained and ensure that ambulances are used only when necessary. Our nightclub medics receive regular update training, we can therefore treat more appropriately on-site, reducing the number of 999 ambulance calls and number of unnecessary hospital admissions. Furthermore, we ensure more adequate treatment whilst awaiting the arrival of an ambulance for life threatening emergencies, by quickly giving the necessary intervention needed in that critical emergency.

The benefits of having us support your venue: All our medics are frontline operations attending to 999 calls when not covering venues giving peace of mind to our knowledge and experience.

- Wide pool of staff to cover any size venue
- Choose from a variety of medical qualifications in cover to suit your needs, from standard medics, to EMT's or Paramedics
- Reduce unnecessary medical calls to 999
- Reduction in licensing issues due to the presence of Medical Staff
- Reassurance and safer feeling environment to patrons
- On call Paramedic clinical support
- On-site ambulance available

## Deceased Support Services

With the loss of a loved one being the most difficult time for families, Deceased Support Services Ambulance Compact Ambulance Response is there when you need us the most. Having expert knowledge and background in frontline operations, our staff are highly trained and proficient in the use of equipment to help extract people from the most difficult layouts of homes and situations.

With this work being very sensitive in nature, our staff ensure dignity and respect are at the forefront of all that we do.

We team up with local Funeral Directors to support them in ensuring that loved ones are moved to local mortuaries or assigned Funeral providers with the upmost respect.

Furthermore, we can also offer a collection and transportation service from further afield with prior arrangement, ensuring a dignified journey to a pre-arranged location where they can then be later supported by assigned funeral care providers.
